PROFILE

Design architect and interior designer with six years of concept-stage leadership across Egypt and the Gulf. I carry projects with one hand — from vision to 3D model, from the visuals and animation that secure approval to the coordinated BIM drawing set that makes them buildable. My work spans giga-projects at NEOM, the headquarters of SABIC and stc, and flagship residential developments for SODIC, Orascom, Misr Italia and Travco, delivered in close collaboration with clients, consultants and multidisciplinary teams.

EXPERIENCE

2026 — now

Mid-senior Design Architect

Innovation Design Studio, Cairo

- Spearhead concept design, 3D modelling and visualization for flagship residential developments by leading Egyptian developers — SODIC Ogami, the SODIC East Vale premium home, Travco West Island and Orascom O West Midyard — shaping each scheme from first massing to approval-ready imagery.
- Masterplanned and designed a staff housing community for close to seven thousand residents — cluster masterplan, zoning and accessibility studies, two repeatable residential prototypes and a Nubian-inspired elevation language, through to 3D models and renders.
- Delivered the complete modelling and rendering package for the three apartment prototypes of Misr Italia Hilltop, Ras El Hekma.
- Introduced AI-assisted post-production into the studio's visualization workflow, accelerating turnaround and elevating presentation quality for developer approvals.

2025

Mid-senior Design Architect & Interior Designer

Cosmos Studio, Cairo

- Led the Chery showroom and administration building and Linah Farms' industrial facility from conceptual studies and visualization through to fully coordinated Revit (BIM) packages, working closely with engineering disciplines and clients.
- Contributed to the NOATUM automotive terminal in Ain Sokhna as part of a collaborative design team — conceptual studies, 3D models, visuals and animation.
- Designed the canopy of Fifth Square, New Cairo, and delivered the 3D modelling and rendering of the complex.
- Conducted a comprehensive design review of the Mazeej hotel and housing complex, Giza, and steered its redesign into full compliance with building codes and architectural standards.

2024

Design Architect & Interior Designer

ZFP · Zuhair Fayez Partnership

- Shaped the headquarters interiors of two of Saudi Arabia's most prominent corporations, SABIC and STC in Riyadh — developing design concepts, 3D models and visuals for lobbies, executive floors and collaborative workplaces.
- Drove material and FF&E strategy through site visits and close vendor collaboration, coordinating the selection and worldwide sourcing of furniture and fixtures within a multidisciplinary team.

2020 — 2023

Design Architect & Interior Designer

Cosmos Studio, Concept Design Department

- Led the complete BIM development of the NEOM public service buildings' interior and architectural packages, ensuring interdisciplinary coordination across the design team.
- Produced the 3D models for the NEOM Oxagon public service buildings, and the 3D models and animated films for Um Qasr Logistic City, Iraq — key instruments for client communication and promotional campaigns.
- Delivered 3D modelling, rendering and animation for Zamalek Club in 6th of October; designed, modelled and visualized Juba Hotel & Resort in South Sudan and the Sharm El Sheikh Tower Hotel.
- Delivered Revit models and drawing sets for the Dry Port buildings, the Estadat City Club complexes, the SIAC office building and One 90 retail.
- Delivered workplace and retail interiors for Sphinx, HB Fuller, Jotun, Tech Park and the BMW showroom — concepts, 3D modelling, schematic packages and immersive animation — and managed design reviews and ongoing client communication for Misk Schools, NEOM.

2022 — now

Independent practice

Freelance, private clients

- Run an independent practice alongside studio work, managing projects directly with clients from brief to final visuals: the Minimal Villa in Egypt and a Mediterranean house concept in Lebanon.
- Interior design for private residences in New Cairo and Sheikh Zayed, Suits Workspaces in India and Arches Restaurant in Saudi Arabia.

SOFTWARE

Design & BIM	AutoCAD, Revit, Navisworks, BIM 360, Rhino, Grasshopper, SketchUp
Visualization	3ds Max, V-Ray, Corona, Lumion, AI concept tools
Presentation	Photoshop, InDesign, Premiere, After Effects
