ABOUT · ARCHITECT & INTERIOR DESIGNER · CAIRO

An idea only counts once it stands on real ground.

I design architecture and interiors that begin as an original idea and end as a built place. Concepts that surprise, details that work on site: homes on Egypt's coast, luxury residences inland, and corporate headquarters from Cairo to Riyadh. Since 2019 I have worked across three studios and my own selected commissions. I have led teams of up to five, and every project in these pages names my role.

2026 —	Mid-senior Design Architect	Innovation Design Studio, Cairo
2025	Mid-senior Design Architect & Interior Designer	Cosmos Studio, Cairo
2024	Design Architect & Interior Designer	ZFP · Zuhair Fayez Partnership, Riyadh

01 · BRIEF

Led the interior concept — lobby, corridors, training rooms, amenities

Renovation of SABIC's headquarters tower: a planted atrium lobby, collaborative floors and training rooms built around the corporate yellow and blue.

01	Brief: turn an outdated HQ into a dynamic, collaborative, brand-led one
02	Constraint: an existing slab protrusion
03	Decision: make it the feature — the atrium planters

02 · BRIEF

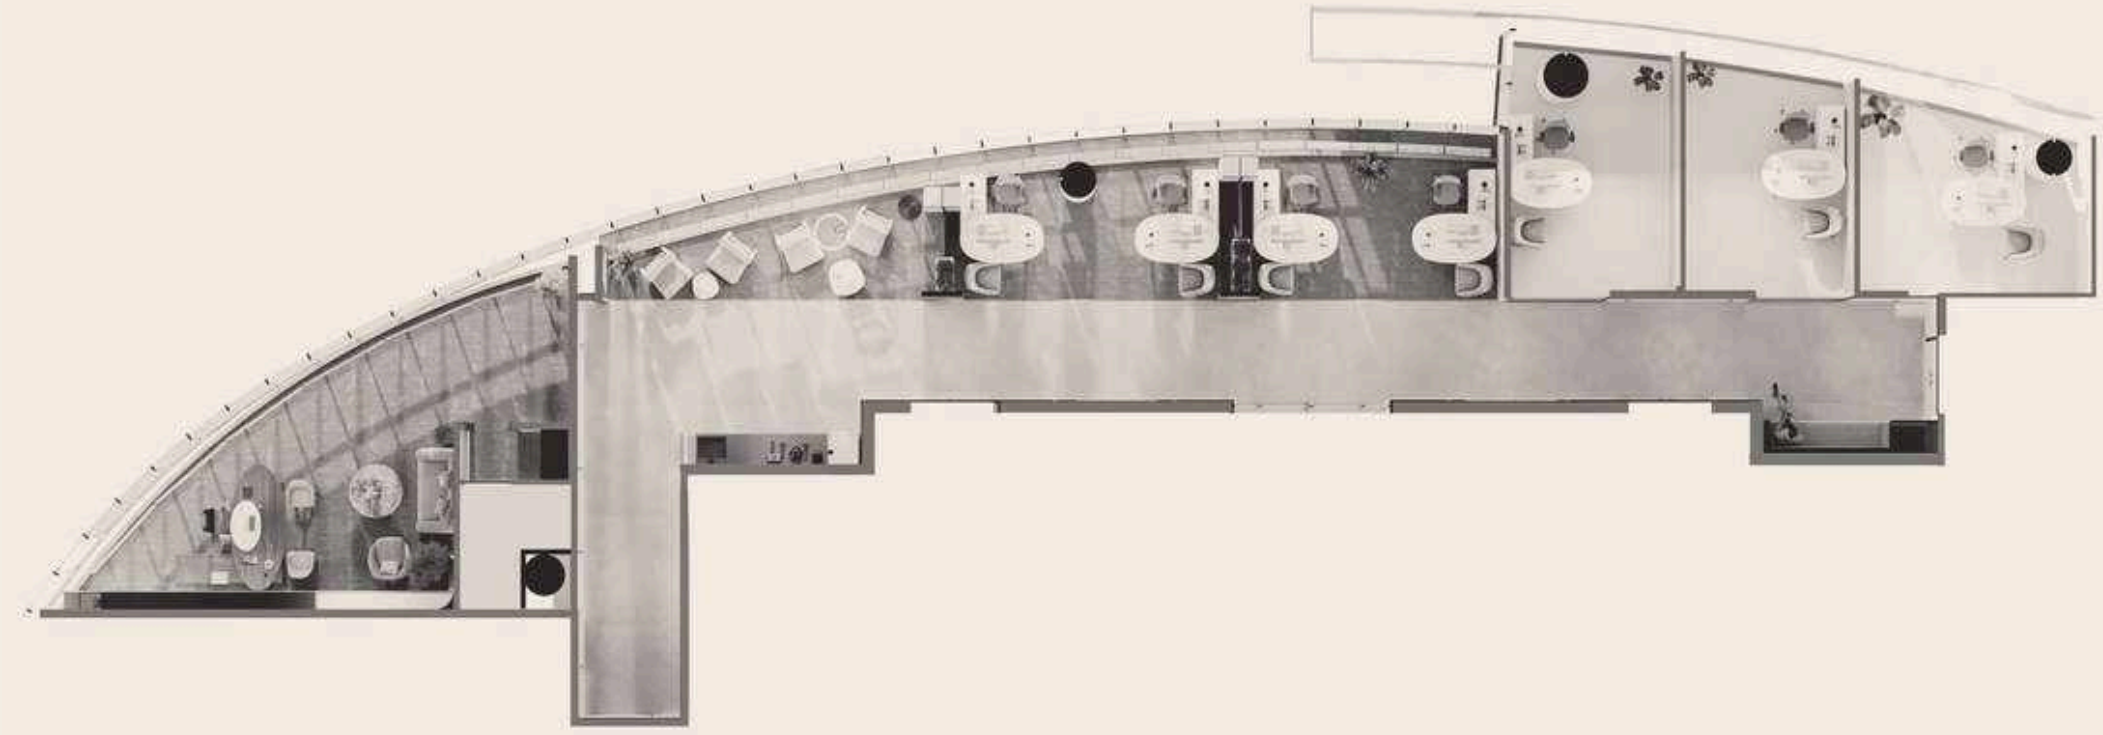

Originated the executive-floor concept that set the design for the tower

Headquarters workplace interiors for Saudi Telecom: executive floors, open offices and focus rooms in a calm palette of stone, oak and the brand violet.

01	Brief: futuristic, recognisable, minimal
02	Site: the tower's huge curves (oxblood = curve zones)
03	Decision: curves become destinations
04	My concept became the team's base
