ABOUT · ARCHITECT & INTERIOR DESIGNER · CAIRO

An idea only counts once it stands on real ground.

I design architecture and interiors that begin as an original idea and end as a built place. Concepts that surprise, details that work on site: homes on Egypt's coast, luxury residences inland, and corporate headquarters from Cairo to Riyadh. Since 2019 I have worked across three studios and my own selected commissions. I have led teams of up to five, and every project in these pages names my role.
